

### Exhibit C.1

The below identification of how HopDrive's Accused Products meet at least each and every limitation of claims 1-3, 6-8, 11-15, and 18-19 of U.S. Patent No. 10,800,354 ("the '354 patent") is exemplary. Throughout the chart, references to HopDrive and Social Auto Transport should be viewed as interchangeable, as the two names refer to the same company and Social Auto Transport is currently doing business as HopDrive.

HopDrive's infringing system is offered through at least: (1) HopDrive's website, for example, through the Move Planner interface in the Dealer Portal, and (2) HopDrive Apps including, for example, the Social Auto Transport app featuring the Driver Portal (collectively "the Accused Products").

U.S. Patent No. 10,800,354	HopDrive's Accused Products
[1(pre)] A system for managing vehicle delivery, comprising:	<p>HopDrive offers a system for managing vehicle delivery.</p> <div><div><h3>Accept a Move</h3><p>Get notified, in real-time, when a vehicle near you needs to be moved. Receive the full details of the move, addresses included. You can make an informed decision to accept or decline without ramifications. Simply mark yourself as started to begin.</p></div><div><h3>Deliver the Vehicle</h3><p>Drive someone else's car for a change. Move the customer's car to the requested location. Upon pickup and delivery you will preform a pre and post-trip inspection, capture vehicle information, snap photos, and upload the information to our app.</p></div><div><h3>Catch a Ride</h3><p>Catch a ride back to your car, ON US! If we don't have a return trip planned for you to drive to another location, then the HopDrive app will automatically request a ride back for you. By the way, you get paid for the ride back as well! ## Schedule a HopDrive

Schedule a move in our easy-to-use Dealer Portal. In most cases, our drivers can be on location within 90 minutes. Customers get a visual of the driver, the vehicle, and the step-by-step tracking in real-time.

## HopDrive Arrives

Upon arrival, the driver inspects the car and takes photos to document its condition, pre-trip. Your dealership and the customer both receive copies of the inspection report, with pictures, in the portal.

## HopDrive Delivers

Upon delivery, the driver inspects the car and takes photos to document its condition, post-trip. We document end mileage, then share information with you and the customer in the portal.

[1(a)] a server running an internet service for managing drivers, configured to:

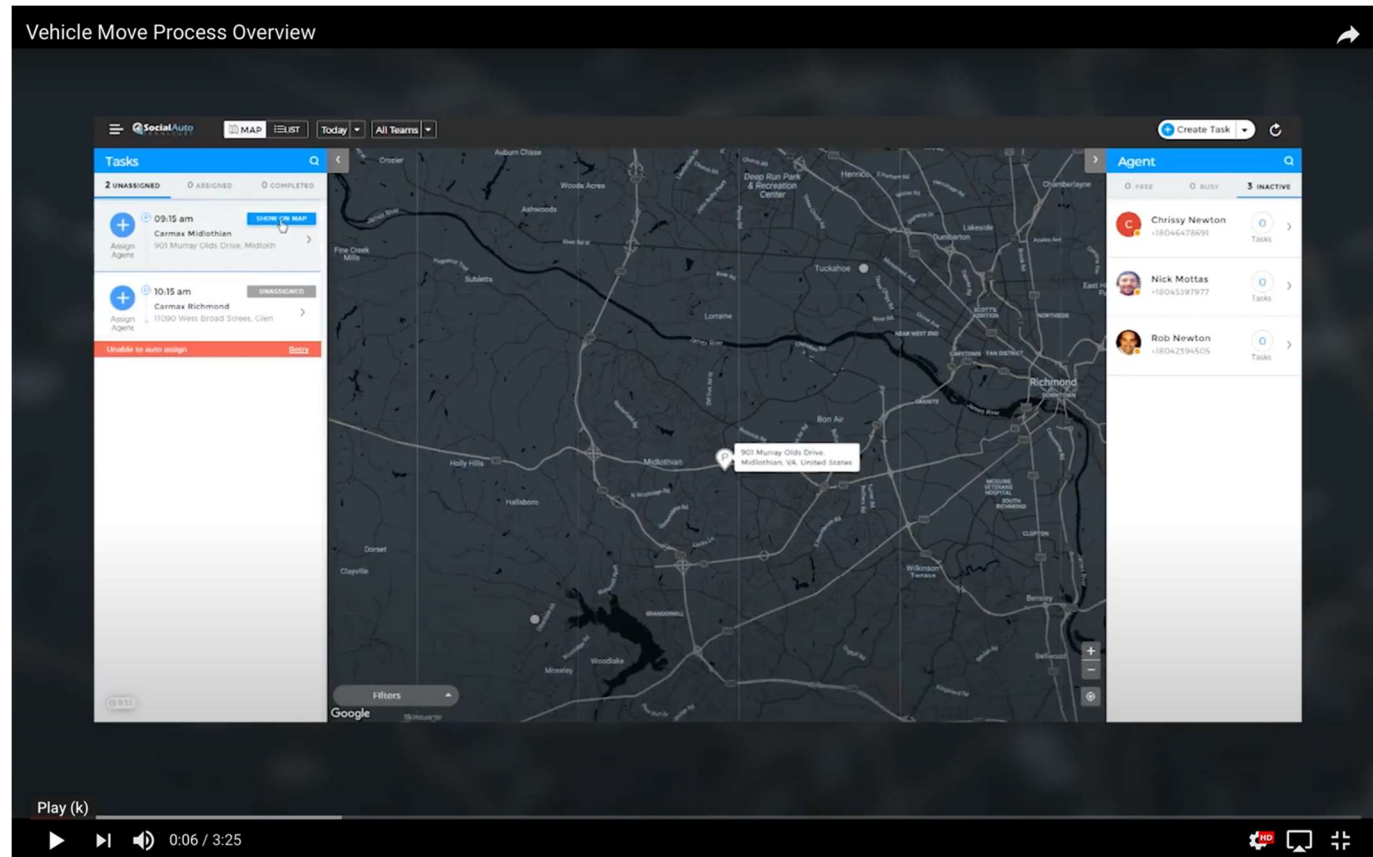

HopDrive’s system includes a server running an internet service for managing drivers. For example, HopDrive’s vehicle delivery system includes a Dealer Portal that is a web app (e.g., an internet service), which allows users to track ... moves and a host of other settings. The Dealer Portal is for managing drivers and moves. HopDrive’s system uses a server running an internet service to run the Dealer Portal web app.

# Dealer Portal

From the Dealer Portal, our easy-to-use web app, you can plan moves, track those moves and manage a host of other settings.

As another example, the below image shows drivers (which HopDrive calls “agents”) and whether they are free, away, or inactive on the right. The drivers can be assigned to tasks on the left.

<https://www.youtube.com/watch?v=4KHvavk8Bqs>

[1(a)(1)] receive a request, submitted by a user, to deliver a target vehicle on a trip

HopDrive’s system receives a request, submitted by a user, to deliver a target vehicle on a trip from a first location to a second location. For example, a user (such as a dealer using the Move Planner interface in the Dealer Portal) can submit a request to deliver a vehicle from a first location to a second location. Because the Dealer Portal is a web app, the request will be received by the server running the web app (e.g., the internet

from a first location to a second location;

service). The Move Planner allows for a One-Way trip to be scheduled to move a vehicle from a first location to a second location.

The screenshot shows the HopDrive Move Planner web interface. At the top is a dark blue header with the HopDrive logo, a phone icon with the number (800) 913-7674, a chat icon with the number (804) 487-3935, and a user profile icon. Below the header, the page is titled "Move Planner" with a welcome message: "Welcome to the move planner. This form allows you to set up a plan to move your vehicles. When the pickup time arrives, one of our drivers will be ready to move your vehicle(s) for you. Be sure to have someone meet our driver at both ends for inspection." The form is divided into three main sections: TYPE, LANE, and MOVE. The TYPE section has four buttons: "One-Way" (highlighted in red), "Round-Trip", "Concierge", and "Concierge + Loaner". The LANE section has two dropdown menus for "Pickup Location" and "Delivery Location", both with the placeholder text "Search for a location...". Below these is a "SHOW FAVORITE LANES" button. The MOVE section has a "Pickup Location" dropdown, a "Pickup Date" field with the value "07/29/2021", a "Pickup Time" field with the value "02:10 PM", a "Dealer Contact" field with a phone icon and the text "Dealer/service contact info", and a "Notes/Instructions (0/255)" field with a speech bubble icon and the text "Special instructions...". To the right of the MOVE section is a "VEHICLE" section with fields for "Reference #", "Stock", "Make", "Year", "VIN", "Model", and "Color". The "Reference #", "Stock", "Make", and "Year" fields are grouped together, as are the "VIN", "Model", and "Color" fields. The "VEHICLE" section also has two buttons: "AUTOMATIC" (highlighted in red) and "MANUAL". At the bottom right of the form is a red "FINISH PLAN" button.

<https://marketplace.fortellis.io/solutions/social-auto-transport-inc/hopdrive?id=3eac4c50-06ee-42dc-b995-2c5159f70974>

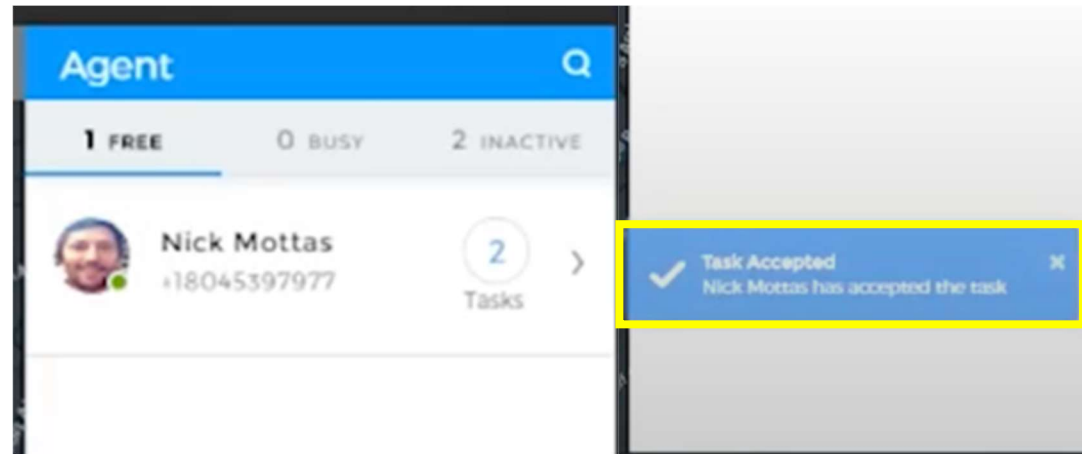

[1(a)(2)] receive a response from a driver accepting the request to deliver the target vehicle;

HopDrive's system receives a response from a driver accepting the request to deliver the target vehicle. A driver can use a mobile application to receive and accept a request to move a vehicle. On information and belief, the response would be transmitted from the mobile application to the server running the web app.

<https://youtu.be/4KHyavk8Bqs>

Once the driver is assigned and has accepted, the Dealer Portal displays a notification indicating that the driver accepted the task.

[https://www.youtube.com/watch?v=4KHyavk8Bqs&feature=emb\\_logo](https://www.youtube.com/watch?v=4KHyavk8Bqs&feature=emb_logo)

### Accept a Move

Get notified, in real-time, when a vehicle near you needs to be moved. Receive the full details of the move, addresses included. You can make an informed decision to accept or decline without ramifications. Simply mark yourself as started to begin.

### Deliver the Vehicle

Drive someone else's car for a change. Move the customer's car to the requested location. Upon pickup and delivery you will perform a pre and post-trip inspection, capture vehicle information, snap photos, and upload the information to our app.

### Catch a Ride

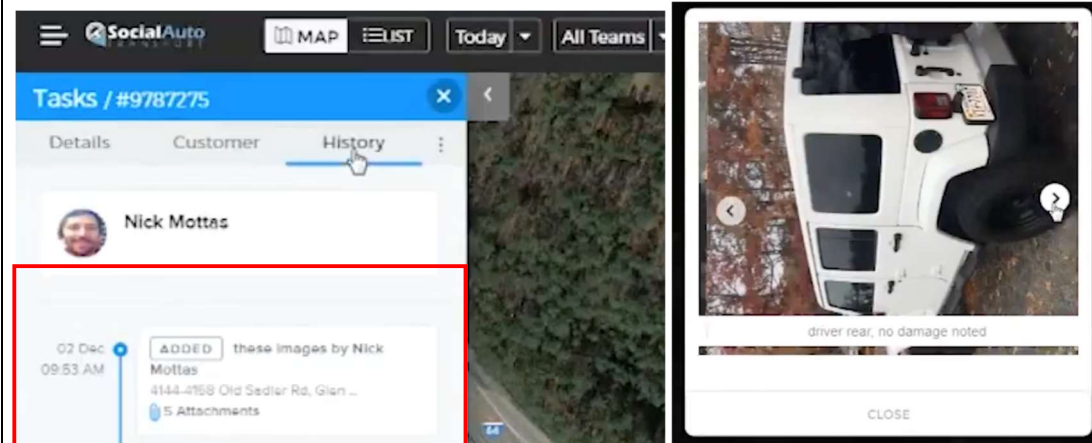

Catch a ride back to your car, ON US! If we don't have a return trip planned for you to drive to another location, then the HopDrive app will automatically request a ride back for you. By the way, you get paid for the ride back as well! Earn money while you drive AND ride!

<https://hopdrive.com/driver-overview>

[1(a)(3)] present, to the user, a vehicle status report; and

On information and belief, HopDrive presents, to the user, a vehicle status report. For example, the following images show a pictures and accompanying narratives related to the status of a vehicle. The vehicle status report is displayed to the user via the web portal.

<https://youtu.be/4KHyavk8Bqs>

## Accept a Move

## We Deliver

We deliver the vehicle, inspect it and take photos to document its condition post-trip. We document end mileage and condition to minimize liability.

## HopDrive Concierge

As easy as 1-2-3

### Schedule a HopDrive

Schedule trips in our easy-to-use dealer portal. We do the driving, and the heavy lifting. We handle the drivers and drives, insurance, loaner drop-offs and more.

### We Arrive and Drive

Our drivers arrive within 90 minutes, inspect the vehicle, take photos and start driving. Customers are updated about their vehicle status throughout the trip.

### We Deliver

We deliver the vehicle, inspect it and take photos to document its condition post-trip. We document end mileage and condition to minimize liability.

[HopDrive | Home](#)

[6] The system of claim 1, wherein the request specifies that the trip further includes delivering an additional vehicle from the second location to a third location.

On information and belief, HopDrive's request specifies that the trip further includes delivering an additional vehicle from the second location to a third location. When creating the trip, the user can choose to have a driver make a round trip back to the first location after reaching the second location.

The screenshot shows the HopDrive Move Planner web interface. At the top is a dark blue header with the HopDrive logo, a phone number (800) 913-7674, a text number (804) 487-3935, and a location dropdown set to 'Lyft - Atlanta'. Below the header, the 'Move Planner' section has a welcome message. The main area is divided into three sections: 'TYPE', 'LANE', and 'MOVE'. The 'TYPE' section has four buttons: 'One-Way' (highlighted in red), 'Round-Trip', 'Concierge', and 'Concierge + Loaner'. The 'LANE' section has two search boxes for 'Pickup Location' and 'Delivery Location', with a 'SHOW FAVORITE LANES' button below them. The 'MOVE' section contains a 'Pickup Location' search box, a note about pickup time, a 'Pickup Date' field (07/29/2021), a 'Pickup Time' field (02:10 PM), a 'Dealer Contact' field, and a 'Notes/Instructions' field. To the right of these fields is a 'VEHICLE' section with fields for Reference #, Stock, Make, Year, VIN, Model, and Color. The 'VEHICLE' section also has 'AUTOMATIC' and 'MANUAL' tabs. A red 'FINISH PLAN' button is at the bottom right.

<https://marketplace.fortellis.io/solutions/social-auto-transport-inc/hopdrive?id=3eac4c50-06ee-42dc-b995-2c5159f70974>

[7] The system of claim 1, wherein the one driver of a pool of drivers registered with the internet service.

On information and belief, in HopDrive's system the one driver of a pool of drivers is registered with the internet service. The HopDrive system assigns drivers from a pool of registered drivers who have registered using a driver sign-up form located on the HopDrive website.

## FAQs

> Do I have to quit driving for the other rideshare guys?

✓ How do I receive my next drive?

Just like other rideshare companies, our app is designed to find the drivers closest to the pickup. If you have the HopDrive app on and you are close to a move request, you will get a move notification. Otherwise, let us know if you are eager for another drive.

> How frequently do I get paid?

> If I drive a car to another dealership, how do I get home?

> How does the insurance work if I'm driving another person's car?

# More Ways to Use HopDrive

Here are just some of the ways we drive vehicles...

## For Your Customers

- ✓ Pickup and delivery
- ✓ Loaner drop-offs
- ✓ Retail Deliveries
- ✓ At-home test drives
- ✓ Remote appraisals

## For Your Business

- ✓ Reconditioning
- ✓ Load Balancing
- ✓ Post auction pickup
- ✓ Aftermarket work
- ✓ Same-day moves

[HopDrive | Dealer Overview](#)

As another example, HopDrive's system provides a concierge service that will move a car from "driveway to dealership and back". That is, a request to drive a target vehicle on a trip to a destination location (e.g., driveway) via an intermediate task location (e.g., dealership) can be received via a HopDrive interface.

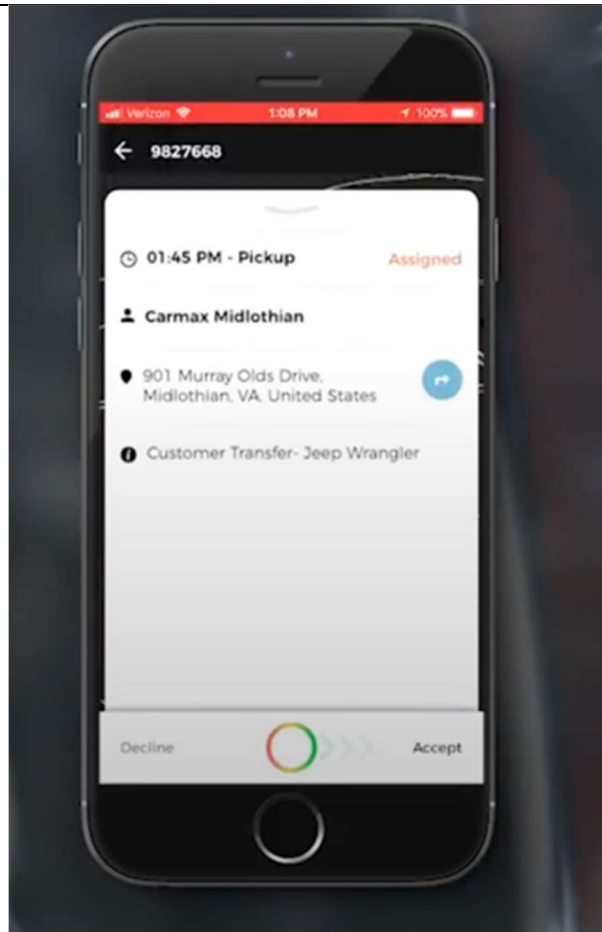

# Your customers want concierge.

Impress your customers with a concierge service that takes their car from driveway to dealership and back, with minimal effort.

Get notified, in real-time, when a vehicle near you needs to be moved. Receive the full details of the move, addresses included. You can make an informed decision to accept or decline without ramifications. Simply mark yourself as started to begin.

### Deliver the Vehicle

Drive someone else's car for a change. Move the customer's car to the requested location. Upon pickup and delivery you will perform a pre and post-trip inspection, capture vehicle information, snap photos, and upload the information to our app.

### Catch a Ride

Catch a ride back to your car, ON US! If we don't have a return trip planned for you to drive to another location, then the HopDrive app will automatically request a ride back for you. By the way, you get paid for the ride back as well! Earn money while you drive AND ride!

<https://hopdrive.com/driver-overview>

The below screenshot also shows vehicle status of a vehicle in transit. On information and belief, this information is presented to the user.

[10] The media of claim 8, wherein the trip includes at least one intermediate task location.

On information and belief, HopDrive's system includes trips with at least one intermediate task location (e.g., aftermarket work at an autobody shop or a dealership for the concierge service). For example, HopDrive provides a concierge service and an aftermarket work service that includes a trip including an intermediate task location.

HopDrive promotes the option for scheduling aftermarket work for a car. On information and belief, HopDrive provides a trip from a pick-up location and a drop-off location, via an intermediate task location (e.g., a shop that does aftermarket work).

The screenshot shows a red background with white text. At the top, the title "More Ways to Use HopDrive" is displayed in a large, bold, white font. Below the title, a subtitle reads "Here are just some of the ways we drive vehicles...". The content is organized into two columns. The left column is headed "For Your Customers" and lists five services: "Pickup and delivery", "Loaner drop-offs", "Retail Deliveries", "At-home test drives", and "Remote appraisals". The right column is headed "For Your Business" and lists five services: "Reconditioning", "Load Balancing", "Post auction pickup", "Aftermarket work", and "Same-day moves". Each service is preceded by a small red checkmark icon. At the bottom of the red section, a blue link reads "HopDrive | Dealer Overview".

## More Ways to Use HopDrive

Here are just some of the ways we drive vehicles...

### For Your Customers

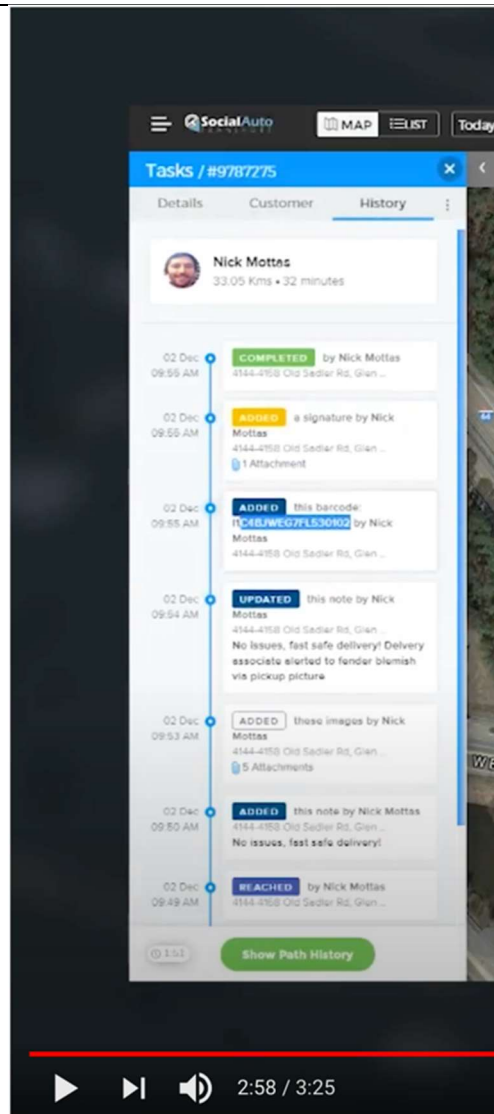

- ✓ Pickup and delivery
- ✓ Loaner drop-offs
- ✓ Retail Deliveries
- ✓ At-home test drives
- ✓ Remote appraisals

### For Your Business

- ✓ Reconditioning
- ✓ Load Balancing
- ✓ Post auction pickup
- ✓ Aftermarket work
- ✓ Same-day moves

## We Arrive and Drive

Our drivers arrive within 90 minutes, inspect the vehicle, take photos and start driving. Customers are updated about their vehicle status throughout the trip.

[HopDrive | Home](#)

Claim 13

[13] The media of claim 8, wherein the driver is one driver of a pool of registered drivers.

On information and belief, HopDrive's driver is one driver of a pool of registered drivers. The HopDrive system assigns drivers from a pool of registered drivers who have registered using a driver sign-up form located on the HopDrive website.

## FAQs

> Do I have to quit driving for the other rideshare guys?

✓ How do I receive my next drive?

Just like other rideshare companies, our app is designed to find the drivers closest to the pickup. If you have the HopDrive app on and you are close to a move request, you will get a move notification. Otherwise, let us know if you are eager for another drive.

> How frequently do I get paid?

> If I drive a car to another dealership, how do I get home?

> How does the insurance work if I'm driving another person's car?

As shown in the right pane, below, there is a task a pool of agents (i.e., drivers) and with different statuses (free, busy, inactive).

<https://youtu.be/4KHvavk8Bqs>

[Claim 14]  
The media of claim 8, further comprising the step of verifying the insurance of the driver.

On information and belief, HopDrive verifies the insurance of the driver. HopDrive insures its drivers when they are on the road. HopDrive's insurance "provide[s] coverage for drivers from the time they take possession of a customer's vehicle." See <https://hopdrive.com/driver-overview>. HopDrive explains that they "know exactly what the insurance cost will be for each car move." <https://www.freightwaves.com/news/social-auto-transport-raises-15m-in-seed-funding-to-expand-gig-economy-auto-moving-business>

## What HopDrive covers

### While the driver app is OFF

- Only your personal insurance policy applies.

### While the driver app is ON

- **Waiting for a move request** - Your personal insurance policy applies.
- **While enroute to the customer's pickup location** - Your personal insurance policy applies.
- **While driving the customer's vehicle** - This is where the HopDrive insurance policy applies.

<https://hopdrive.com/driver-overview?resource=1>

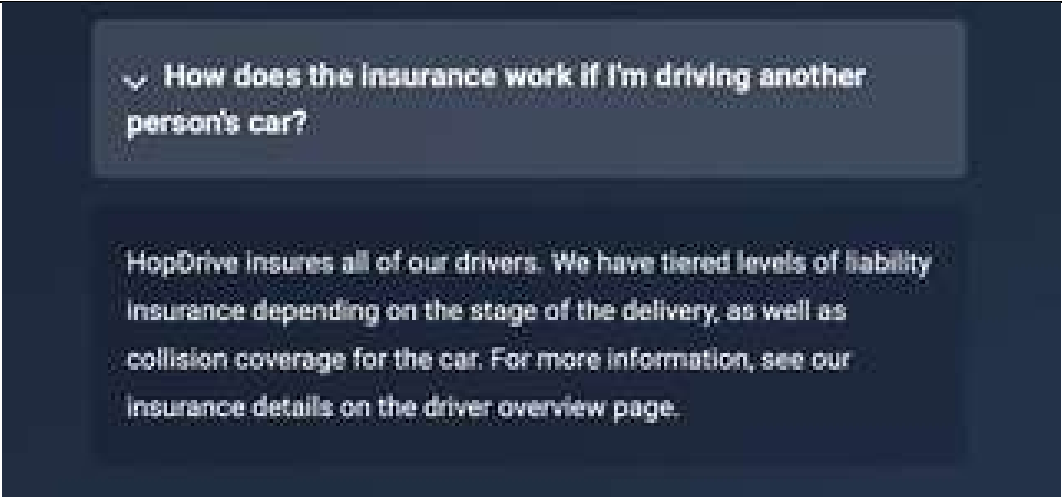

Social Auto Transport describes how they insure each driver as they drive by the mile.

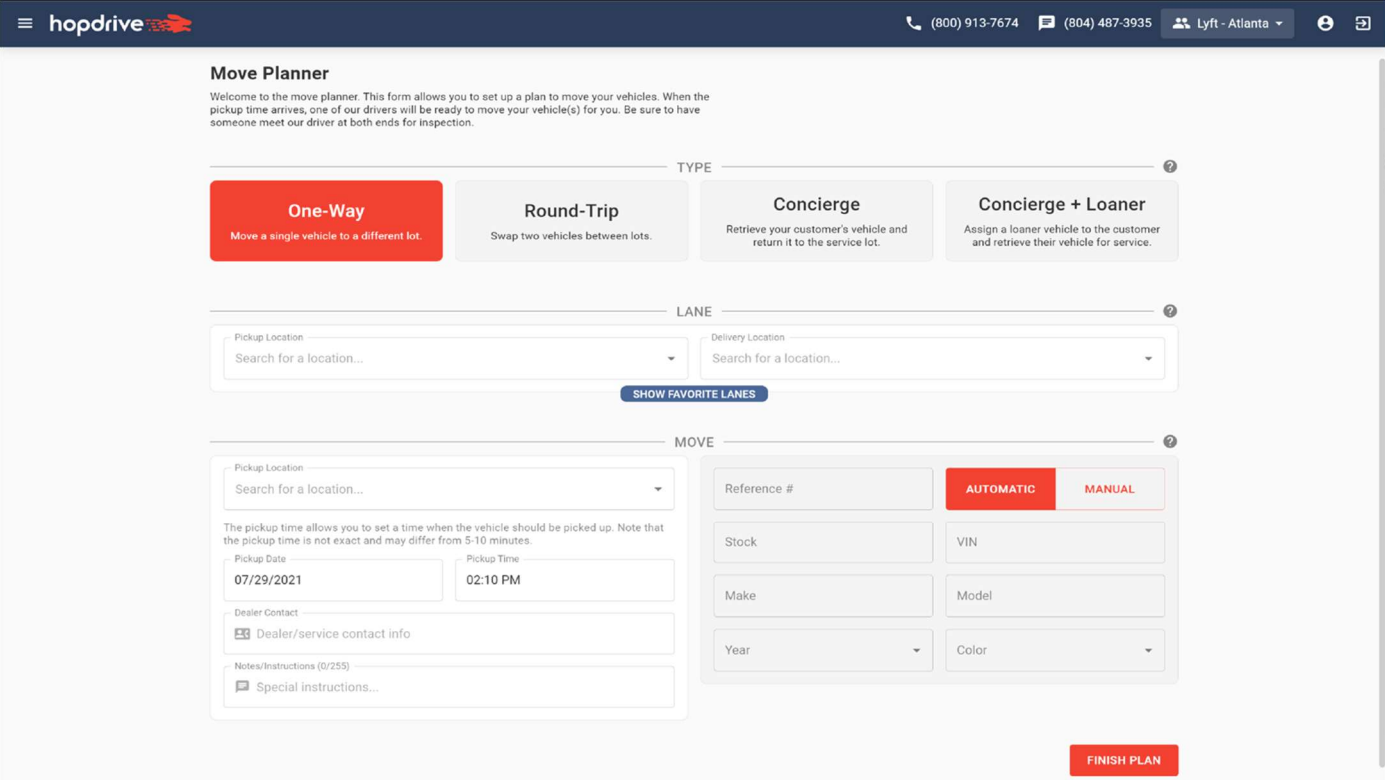

Insurance was a big issue that Mottas and Newton had to deal with as well. The company is insured through James River Insurance, a Richmond-based insurance provider. Social Auto pays for its insurance by the mile, allowing it to keep its costs down and also to know exactly what the insurance cost will be for each car move, which helps with transparent pricing.

"They were the ones that pioneered gig economy insurance with Uber back in the day, and they just happen to be in my hometown," Mottas said. "They've been able to insure us in the ways we need to be insured for us and our customers."

Gig economy drivers, he said, also like the Social Auto Transport model because they are paid for moving a vehicle but incur any of the costs such as fuel, insurance and vehicle wear and tear typically associated with a gig economy driving job.
